## TO WHOM IT MAY CONCERN

**Re: Mr Chris Fletcher**

Darley have employed the services of Mr Fletcher's company on a number of occasions.

It is our experience that the company have always demonstrated the utmost care, particularly where sensitive issues involving neighbouring properties or technical matters relating to the proximity of other operations were concerned. On the rare occasion when there were initial comments relating to the (lower than normal) levels of noise and dust associated with demolition works, these were addressed promptly, carefully and considerately. Mr Fletcher deals with these matters personally with an exceptional level of courtesy and consideration.

We would not hesitate to utilise this company's services again and, indeed, are shortly to place an order for work within our Principal's private residential area.

Yours faithfully,

Peter H. Amos  
**MANAGING DIRECTOR**
