SITE: Bridge House

To whom it may concern

I am pleased to give McFletch Ltd a reference for the demolition works, asbestos removal and the removal of 91 Portland stones for reuse which form the Bridge House Mural. The site was fronted by the main road into Peterborough city centre and the river nene. All the above works were carried out in a very professional manner. The health and safety on this project was always at a very high standard and the CDM regulations were met excellently. This was a 16 weeks program; McFletch Ltd delivered the project in 12 weeks and on budget. This is including some extra works. The total value of this project was circa £450,000. This was the fourth project McFletch Ltd has completed for Peterborough city council and we would highly recommend them and not hesitate in using them again.
