Suffolk CB9 7GB

Dear Sirs,

**Re: Testimonial for McFletch in respect of works at Grafton Way, Ipswich.**

McFletch were appointed by our client, Tesco Stores Ltd to provide a scheme of enabling works at Grafton Way, Ipswich. These works comprised of a series of demolition works, ground remediation and archaeological trench dig investigations in conjunction with Suffolk County Council Archaeological Department, all in advance of the main site works to develop the wider site.

Roscoe (Project Manager for Tesco Stores Ltd) was impressed by their pro-active approach to the works, which resulted in the project being completed on time and within the required budget constraints.

We have no hesitation in recommending McFletch for similar works and will seek opportunities to work again with McFletch in the future.

Yours faithfully

Craig Myers  
Project Director  
**Roscoe Development Management Ltd**
